

Dr. med. Matthias Oelke
Associate Professor of Urology

Dr. Oelke is Associate Professor of Urology and Section Head of Functional & Reconstructive Urology of the Department of Urology & Urological Oncology at the Hanover Medical School, Germany.

Dr. Oelke studied medicine in Munich and Hanover, Germany where he also conducted his residency in the Department of Urology from 1996-2001. In 2003, he passed the Examination of the European Board of Urology (Part I). In 2004, Dr. Oelke completed his doctoral thesis with *summa cum laude* and, in the same year, he joined the Department of Urology at the Academic Medical Centre in Amsterdam, where he worked as Section Head of Functional and Reconstructive Urology. In 2005, Dr. Oelke completed the Examination of the European Board of Urology (Part II) and was appointed as Fellow of the European Board of Urology, F.E.B.U. Dr. Oelke returned to the Hanover Medical School in Germany in 2008 where he became Vice-Chairman and Associate Professor in 2010.

Dr. Oelke is an active member in many societies including the European Association of Urology, International Continence Society, International Consultation on Incontinence-Research Society, Dutch Society of Urology, the German Society of Urology, German League of Urologists, and the German Society of University Teachers. He was chairman of the EAU Guidelines on Male LUTS from 2004 to 2012 and panel member until 2014. He participates in the German Expert Group on Benign Prostatic Hyperplasia, German Expert Group on Functional Urology, and European Section of Female Functional Urology (ESFFU). He has recently been elected as member of the ICS detrusor underactivity commission. He is a member of the editorial boards of the World Journal of Urology, Der Urologe, International Brazilian Journal of Urology, Urologia Essencial, BioMed Research International, and UroVirt. He won 16 national or international prizes and received three research grants, one of them the prestigious *Astellas European Foundation Grant 2012*.

Dr. Oelke has published 72 original scientific articles, 81 review articles, 29 book chapters, and 3 books.
